SWIMMER'S EDGE 18

High Performance Swim Spa

Endorsed by 5-Time
Ironman Champion
Heather Gollnick

NEW! Sunbed
with Waterfalls

"This is the Mac Daddy
of all fitness spas. ...
When I first got in, they
turned it up high and it
was too powerful for me.
Thankfully they can turn it
down and set the setting
on something that can be
more manageable. It's great."

– Heather Gollnick

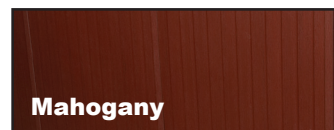

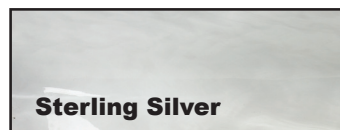

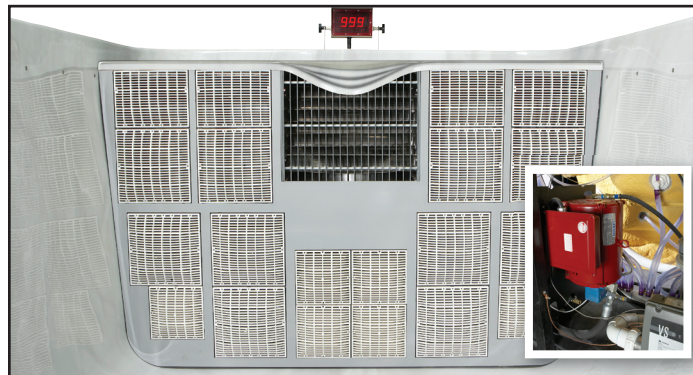

The Widest, Deepest Current in the Industry

Exclusive Technology Gives You an EDGE

A 6-blade, 18-inch stainless steel propeller funnels water through louvers and out a 2-foot opening that creates a wide and deep current throughout the swim spa, not just in a center lane. The **variable speed current can be set from 0 to 4,000 gallons per minute!**

VGB compliant suction circulate the water back for a continuous swim.

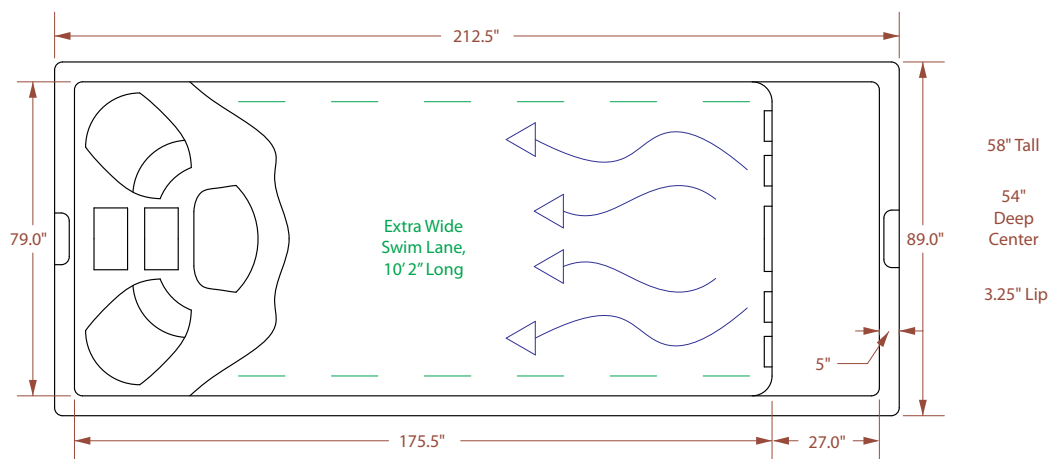

Shell / Cabinet Colors

The Swimmer's Edge 18 from Premium Leisure offers what many swimmers have called the best swim experience in any portable swim spa because it encourages proper stroke technique without the need for a tether. It is the only model that utilizes RipTide Machine™ technology – a variable speed, hydraulic-driven stainless steel turbine power system. This 5.5 HP standalone wellness retreat comes with a built-in topside control that allows the swimmer to generate a continuous wave. **Set the unit between 1 and 80 and enjoy the same workout every time.**

**TURBINE POWERED: No Oval River Jets! No Circular Jets!
No Underpowered Plastic Propellers!**
